JOHNS EASTERN

Claim Adjusters & Third Party Administrators

INTEGRITY, EXPERIENCE AND RESULTS

Founded in 1946, Johns Eastern has proven to be one of the nation's leading independent Third Party Administrators. Headquartered in Lakewood Ranch, Florida, we have been successfully administering self-insured workers' compensation and property and casualty programs for a diverse range of self-insured entities since 1984. Our client base consists of various public and private entities, as well as several carriers and consortiums.

At Johns Eastern, we work closely with each of our clients to understand their needs and build them a customized program. For 73 years, we have striven to provide our clients with a product based on Integrity, Experience and Results. We recognize the importance of understanding the specific risk management goals of our clients and consistently utilize our time-tested best practices to achieve positive outcomes for their programs.

USER-FRIENDLY ONLINE CLAIM ACCESS

Johns Eastern provides clients with 24/7 online access to our state-of-the-art claims management system, AIM 2.0, which is continually improved to best serve the needs of our adjusters, managers and clients. Some of our more recent improvements which have proven to be quite popular among clients are:

TPA SERVICES: WORKERS' COMPENSATION

Our nurses and adjusters work side-by-side with one goal in mind: returning your injured or ill employees to work as soon as possible. The result for your organization is reduced workers' compensation indemnity and medical costs, and an increased bottom line. We get involved in a case within the first 24 hours and follow it through to completion. We recognize that clients have unique expectations and want different levels of participation. Our flexibility gives us the tools to customize a program to meet your specific needs.
